

The opportunity

HR Dept Professionals is a unique opportunity for you to become your own boss and build a business with all the support provided but without breaking the bank. Using the best brand in the business you will be given the tools and skills to run a successful HR Dept through our HR Dept Professionals scheme.

As an overview The HR Dept has been providing HR services to small to medium business's (SME's) in the UK for over 5 years. Our vision is to have a network of HR Dept's across the country providing local and personal, high quality, cost effective services to the SME marketplace.

The cost for the Professionals licence is just £2,500.00 plus vat. Though technically this is a franchise, we refer to everyone in the network as Professionals.

As we want you to be as successful we do not believe in restricting your profits by charging a percentage of your billing amount, we simply charge a fixed monthly management fee of £525.00 for the duration of the licence. This covers the ongoing support and activities we provide you with, but the first two months are absolutely free in order to get your business running. You won't actually be invoiced until month three giving you time to start generating work.

With our sales and marketing training and support, we believe this is a really unique opportunity for qualified HR professionals with drive and energy, to be able to get out into the SME marketplace with confidence, and sell the whole HR Dept range of services. This includes an advice line service backed by legal expenses insurance and we are proud that we are the only HR Company whose advice is backed in this way.
